The protests made by the Consuls of the United States and Great Britain against the hauling down by Russian order of the American and British flags has resulted in the Russian administrator promising that they will be raised again on the American and British buildings.

The Consuls maintained that the removal of the flags infringed on the rights of neutrals, even if the Russians suspected that the Chinese were unlawfully using the flags for the purpose of evading police inspection.

M. Protasieff, Admiral Alexieff's financial agent, declares that Russia does not wish to destroy the shipping trade of Newchwang, and she will arrange terms to facilitate that trade. Five merchantmen which arrived Sunday were admitted to the harbor on Tuesday.

The police are enforcing the new Russian

regulations. LONDON, March 31 .- The Tientsin correspondent of the Standard says that the effect of martial law at Newchwang has been exaggerated. The discomfort therefrom thus far has been small, although future developments may be unsatisfactory. The area included in the proclamation probably will be extended west of the Liao River. The Consuls have not yet acquiesced

to the proclamation. The Times prints a despatch from Newchwang that the Russian police have apolosized for hauling down the American flag there and have reholsted it over the correspondents' quarters. The Russians are already inforcing martial law on the west bank of the Liao River.

GUARDING INDIA'S FRONTIER. Viceroy Curzon Offers a Defence of His Policy.

Special Cable Despatch to TRB SUN. CALCUTTA, March 30 .- In the course of an important speech in the Council, Lord Curzon, the Viceroy, made significant remarks concerning the external relations of India. He compared India to a fortress, with the sea, like a moat, on two sides, and mountains on the third side. He said that beyond these walls there is a glacis of varying

dimensions, and added: "We do not want to occupy the glacis, but we cannot afford to see it occupied by a foe. We are content that it remain in the hands of our allies and friends, but if unfriendly influences creep up and lodge under our walls we will be compelled to intervene because the danger caused thereby will menace our security. This is the secret of the whole position of Arabia, Persia, Afghanistan, Tibet and Siam."

Lord Curzon repudiated the imputations that he was pursuing an impulsive, pushful policy on the frontier.

MARCONI COMPANY WINS. Agreement With British Government for Handling Messages.

Special Cable Despatch to THE SUR. LONDON, March 30 .- At a meeting of the Marconi Wireless Telegraph Company to-day the chairman stated that the year's receipts had exceeded the expenditures by £10,607. He stated also that an agreement had been made with the postal authorities, but did not give any details of it.

The agreement with the post office, according to one of the directors, places the ompany on a level with the cable companies so far as the receipt and despatch of messages are concerned.

A newspaper says it understands that the contract embodies an arrangement by which the senders of marconigrams will pay to the post office rates that include the inland and oversea transmission.

Marconigrams filed at sea or aboard to tions to destinations in Great Britain will be treated the same as cable despatches.

WHO WAS AT ANDOVER.

Sir Liang, back in the early '80s when he was plain Pi Yuk, was the star batsman on the Andover nine, his two-bagger and three-bagger in a championship game with Exeter being a school tradition to-day. Consequently there was much rejoicing among Andover men when it was learned that he would be present last night.

Secretary William S. Haskell of the asso ciation, together with half a dozen others met the Minister's train at Jersey City vesterday afternoon with a big red racing automobile. Sir Liang, arrayed in costly silk robes and red-tasseled cap, climbed in without the slightest hesitation. Vice Consul Wing, who was at the station to meet the Minister, also consented to take

a seat.

The party at first felt some anxiety as to the reception they would meet with going up Eighth avenue. But the free and independent citizens down in Hell's Kitchen were so overcome by the unusual sight and the chauffeur had the speed limit calculated to such a nicety that before they could ecover sufficiently to express their feeling y word or action the red devil was many locks up the street.

They chug-chugged up through the Park to Claremont, and after light re-freshments there, down to Riverside Drive t isn't every day that New York sees two Chinamen in their official togs laughing and joking on the seat of an automobile, and the party attracted considerable atten-

At the dinner last night, after Principal Alfred E. Stearns had told of the progress and needs of the school, President Horace E. Deming of the association, introduced Sir Liang.
"Not by his official title," said Mr. Deming, but by the name he likes best and the name

Andover, Andover, rah, rah, rah,

To the uninitiated it was hard to tell just ow much was cheer and how much was the distinguished guest's name. Before he managed to make a start he was lustily sung to with: Here's to Pl-yu-uk, Pl-yu-uk, Pl-yu-uk, Here's to Pl-yu-uk, God bless him, God bless him, Here's to Pl-yu-uk, Pl's with us to-night. For he's a joily good fellow, &c.

For he's a joily good reliow, &c.
Sir Liang's speech was devoted for the most part to old college memories. He talked of the days "when I foozled and flunked in my Virgil and Cicero and often heard from Prof. Comstock the dreaded words That will do. Next.' " [Laughter.] Then he spoke tenderly of Dr. Bancroft and recalled a famous occasion when he, Sir Liang, and his fellow undergraduates gave a tin horn concert and a bonfire outside the doctor's reception to the graduating classes Sir 11ang appreciated this memo much as did his audience as he told h fied from the pursuing forces, hid in the cellar of a barn and finally sneaked back to McCurdy House, where a considerate professor, tolerant of youthful spirits, had

[Applause]. It was not Latin, mathematics or languages which alone we were trained in. We were taught to depend on ourselves. With the moral influences exercised over us in those days by the grand old doctor and the numerous good teachers he had with him we were taught the high sense of our duty to our country and the high sense of our duty to mankind. [Applause.]

I am glad, gentlemen, that the sons of Phillips Academy in New York have formed an association for strengthening the ties that bind them together. It is fitting that we should make some acknowledgment of our debt to the grand institution and to the grand corps of teachers who have trained us in the way we should go.

We sons of Phillips in Washington have recently followed your good example in this regard. We have formed ourselves into an association, and though the number may be small, it lacks no zeal in its interest for the welfare that pertains to the dear old alma mater of us all. [Continued applause.]

DANIEL BACON, JR., OF NEW YORK A SUICIDE IN YOKOHAMA.

Quarrel With Sweetheart the Cause—Family Here Believes Death Was Due to Pneumonia-Young Man's Father a Broker -Son Went to Japan Six Months Age. VICTORIA, B. C., March 30 .- A steamer rom Japan to-day brings news of the

suicide of a New York man on the night of March 6 at 26 Bluff, Yokohama, the home of a prominent member of the American colony whose daughter's nineteenth birthday was being celebrated. Daniel Bacon, Jr., of New York was one of the guests and was devoted to one of

the young hostess's girl friends. When cards had been succeeded by dancing, Mr. Bacon apparently became angry because the young lady accepted the invitation of a rival for a dance, and leaving the guest room, much excited, stepped into an adjoining chamber. The next moment a pistol shot alarmed

the company, and it was found that Bacon had shot himself through the temple The bullet passed down through the mouth and throat, killing him immediately. An inquest was held the following morning and a verdict of suicide returned.

The report that Daniel Bacon, Jr., had committed suicide was scouted vesterday v the members of the young man's family in this city. His father, who is a broker at 66 Broadway, was in Lakewood yesterday. His uncle, Stephen H. Bacon, in business at the same address, declared that young Bacon died of pneumonia on March 6 and that the body is expected to arrive in this city in about two weeks.

Memorial services were held at the family residence, 153 West Fifty-seventh street, on March 12. Bacon was a student at Harvard until about a year ago, when he left to be operated on for appendicitis. Last sumner, accom-panied by his mother and sister, he travelled in Europe for Lis health. He returned in September and two weeks later left for Japan alone, partly for pleasure and partly with the intention of going into the export ing business at Yokohama. To help him ing business at Yokonama. 10 heip him in his business venture he carried letters of introduction from J. I. Raymond, head of the Japanese importing firm of A. A. Vantine & Co. on Broadway. Young Baconsmother was Miss Charlotte Vantine, daughter of the founder of the Broadway house.

SHAFT BENT IN TWO PLACES. Injury to the Illinois More Serious Than Was Supposed.

The damaged propeller shaft of the bat tleship Illinois was put into the mammoth lathe of the machine shop at the navy yard yesterday, and after test measurements had been made it was found that there wer had been made it was found that there were two points where it had been bent in the collision of the Illinois with the Missouri.

The first bend, which had already been reported, is at the collar at the end of the taper, where the screw is fitted on. The shaft there is about half an inch out of line. The second bend, discovered yesterday, is at a point immediately astern of the thrust bearing. An effort will be made the thrust bearing. An effort will be made to straighten the shaft.
